

Mobile Tracker Free

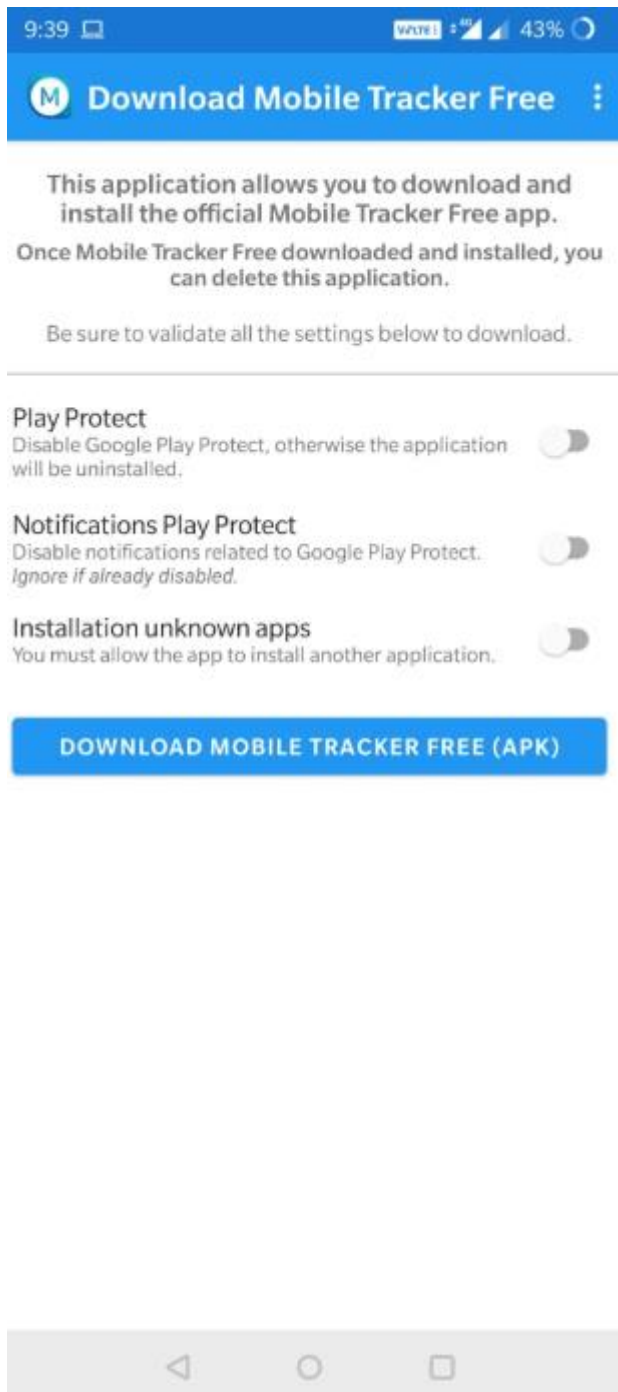

We are doing mobile hacking by using an app called Mobile Tracker Free and installing it on our phone as victim's phone.

To do this type of hacking we need a physical contact on the phone.

First download the app on the victim's phone.

Now open the app.

It will look like this.

And give all three permissions to it.

Then download the app.

The thing you have downloaded from google was agent now it will start.

It will be there on your phone as WIFI.

Give the related permissions then next.

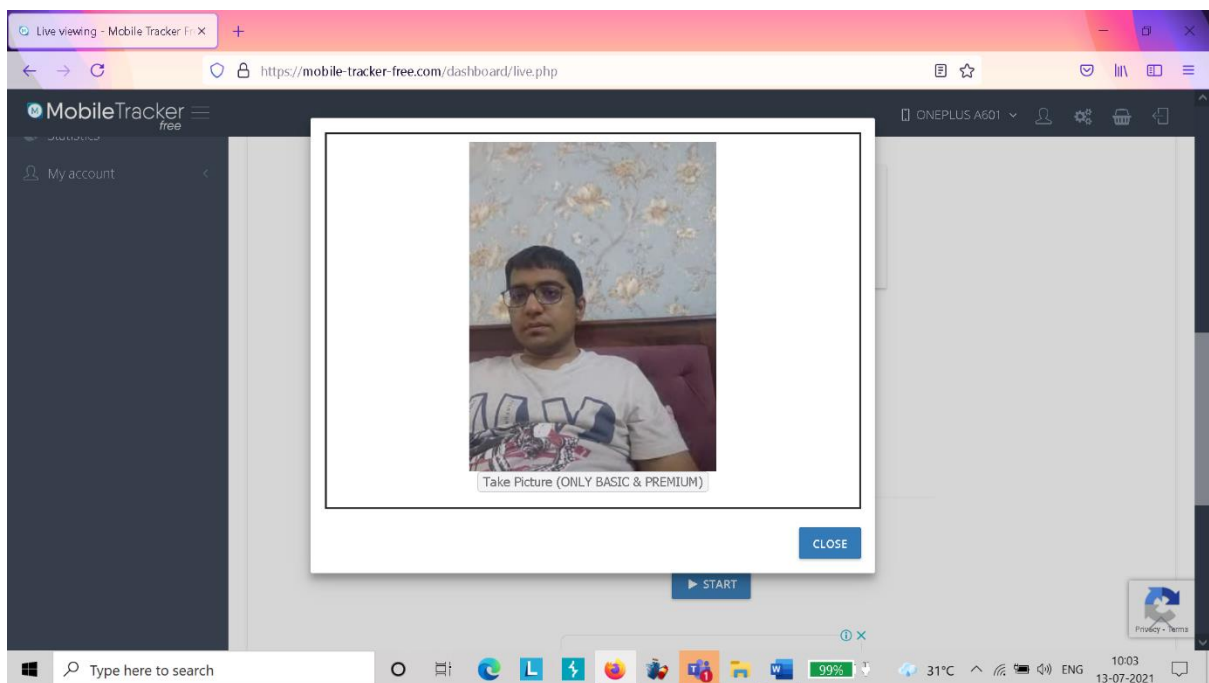

Now it is ready.

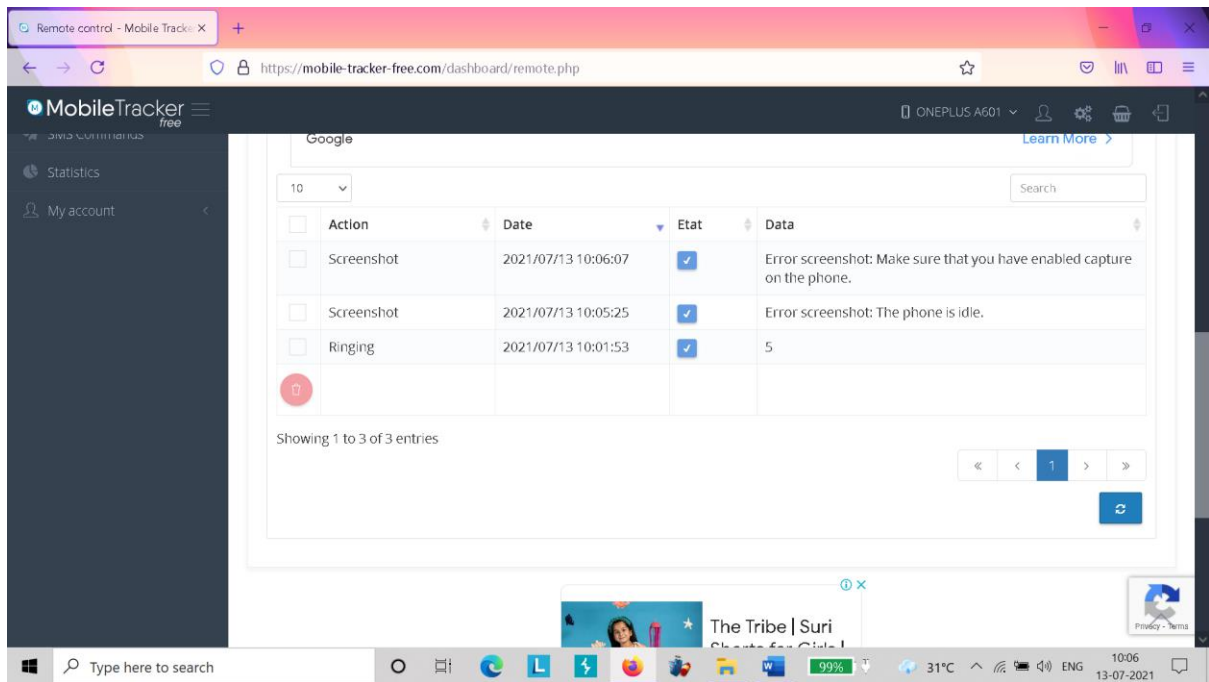

Now login online in your computer in online tracker free website.

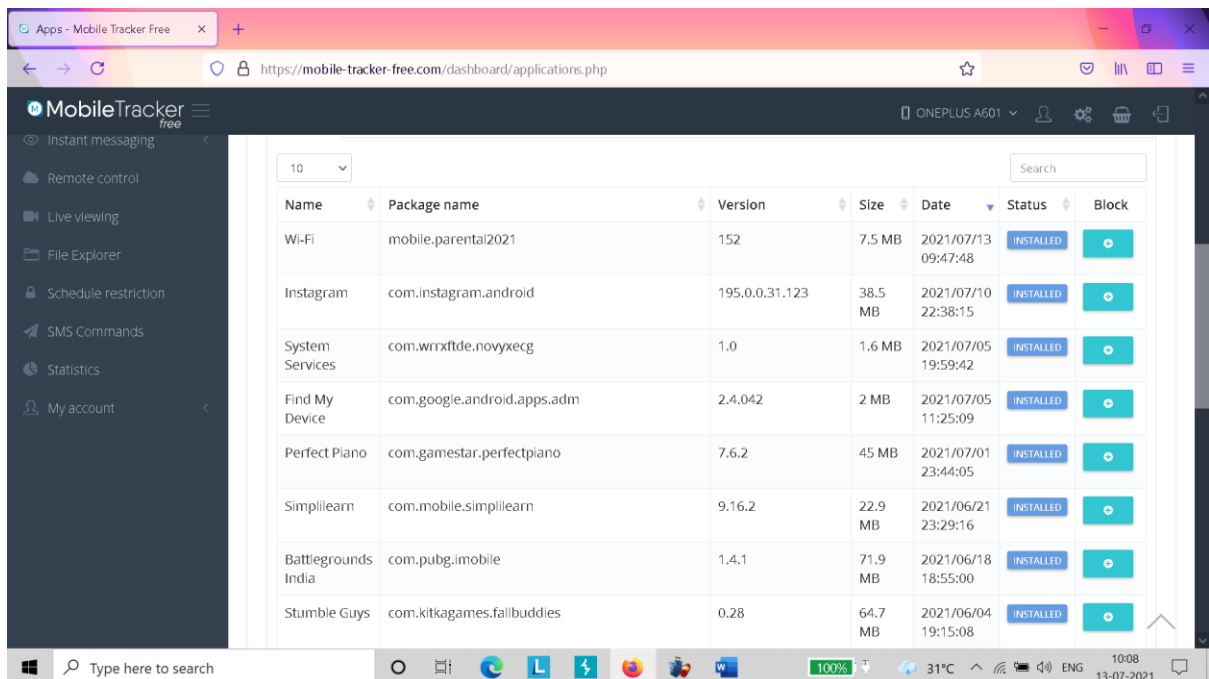

It will look like this now do whatever you want.

This is the live recording that I have taken.

Here You will find the screenshots and actions taken.

Here are all the apps installed on my phone.

Here You can do whatever you want without even no knowledge of the victim.

To close the app, take back the admin permissions and uninstall the app and restart it will be back to normal.

And logout of the site.

This type of hacking can be avoided by-

- Not giving your phone to anyone because this hacking can only be done when phone is in physical contact.
- Or installing find my phone in your device because if your phone is lost it will locate it and you can also format the phone.
